BULK HAIR

We always have unbleached hair in bulk which is sold net by the pound. It is priced according to quality and length. This includes salt-and-pepper, gray, black, short sizes, etc. It is easy to find very inexpensive white hair that is of poor quality - this hair has been bleached, and it is typically very dry and brittle. To find inexpensive hair of good quality, you must sacrifice color. You must be willing to pay more for white hair of fine quality. Since prices change frequently, please call for latest pricing.

PERNAMBUCO FOR BOW MAKING

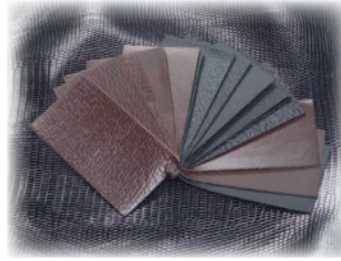

Sourcing quality pernambuco has become increasingly difficult in recent years. Restrictions on the trade of pernambuco have been imposed due to the over-harvesting of the pernambuco forests. Fortunately, we have been able to source and import some old (over 25 years!) pernambuco with proper CITES documentation.
